

Introducing the RC-J65

RubbleCrusher's line of compact, mobile Jaw Crushers offer an on-site solution managing C&D waste and recycling material for immediate reuse. These crushers are ideal for small- to moderate-sized crushing projects and provide a perfect solution for builders, landscapers, demolition and aggregate crushing applications.

Utilizing the same 650mm x 350mm (26" x 14") Jaw Crusher module as RubbleCrusher's RC150T Crusher, the RC-J65 offers an extended folding conveyor for larger product piles and a larger CAT C1.7 36Kw EU Tier V (US Tier 4 Powerpack) engine. Operators can upgrade the RC-J65 by adding the overband magnet to remove unwanted metals from the crushed material.

CRUSHER - RC-J65	MAXIMUM FEED SIZE	520mm x 280mm / 20" x 11"
	FEED HOPPER	1640mm x 1260mm / 64" x 50" + Spill Guard
	JAW	650mm x 350mm / 26" x 14" Single Toggle
	SETTING RANGE	15mm - 100mm / 5/8" - 4"
	THROUGHPUT	5 - 50 Tonnes Per Hour
	ADJUSTMENT	Hydraulic Wedge System
	TRANSMISSION	Hydraulic Driven Crusher
	ENGINE	CAT C1.7 36Kw EU Tier V / US Tier 4 Powerpack
	FUEL CAPACITY	40 Litres / 10.5 US Gallon
